## Summary

Full Stack Developer skilled in React.js, Node.js, Express.js, and MongoDB, with hands-on experience building production-grade applications. Developed LUXE, a full-stack e-commerce platform with Redux Toolkit and CI/CD pipelines, and ConneXo, a real-time social media platform leveraging Socket.IO. Currently contributing as a Frontend Developer Intern at Proxima AI Products and Solutions, delivering responsive, cross-browser interfaces with measurable performance improvements.

## Technical Skills

**Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS  
**Backend:** Node.js, Express.js, REST APIs  
**Database:** MongoDB, Mongoose  
**Deployment/DevOps:** Render, Git, GitHub, Cloudinary

## Projects

### E-Commerce Platform – LUXE

2025

MERN, Redux Toolkit, Render | [Luxe.onrender.com](https://Luxe.onrender.com)

- Built a full-stack web application with 30+ product listings, wishlist, cart, and secure checkout using the MERN stack.
- Styled the UI using Tailwind CSS and daisyUI components, reducing custom CSS by 25–30%.
- Managed 5+ global states (user, products, cart, wishlist, and orders) using Redux Toolkit, reducing prop drilling and improving state consistency.
- Configured GitHub and Render CI/CD pipelines, reducing deployment time by 30% and enabling continuous delivery.

### Social Media Platform – ConneXo

2025

MERN, Socket.IO, Zustand, Render | [conneXo.onrender.com](https://conneXo.onrender.com)

- Implemented 4+ focused features such as chat, posts, likes, and user insights, ensuring interactive engagement.
- Structured the chat interface with 40% cleaner modular components, improving code readability and maintainability.
- Built 3+ real-time features with Socket.IO, including chat, online status, and typing indicators.
- Maintained version control with 80+ Git commits for both frontend and backend development.

## Experience

### Frontend Developer Intern

May 2026

Proxima AI Products and Solution Pvt. Ltd.

Bhubaneswar, Odisha

- Developed and maintained responsive web pages using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility across Chrome, Firefox, and Safari, reducing page load inconsistencies by 20%.
- Built dynamic card-based UI components with on-demand content expansion using JavaScript DOM manipulation, reducing initial page render load and improving user engagement across 4+ product pages.
- Diagnosed and resolved cross-browser CSS and layout bugs across mobile, tablet, and desktop breakpoints using browser DevTools, delivering fully responsive interfaces with consistent UX across all viewports.
- Interpreted client style requirements and translated them into pixel-perfect UI components using CSS3 and JavaScript, ensuring visual consistency across all pages and delivering a fully client-approved interface within the project timeline.

## Achievements

- Solved 250+ JavaScript and React problems on LeetCode, GreatFrontend, Codewars, and HackerRank, with a focus on improving coding proficiency and algorithmic thinking.
- Maintained 3-Star rating on HackerRank in Problem Solving with consistent practice in JavaScript and logical reasoning.
- Developed 3+ personal frontend projects and contributed to 2+ real-world projects during internship, building practical experience in the complete frontend development workflow.

## Education

### GIET, BPUT University

2020 – 2024

B.Tech in Computer Science and Engineering

CGPA: 8.2/10
